Present: Councillors: Kate Rowbottom (Chairman), Christine Costin, Duncan England, Jim Sanson

Also present: Councillors: Roger Arthur, George Cockman

Apologies: Councillors: David Coldwell, Jim Goddard, Frances Haigh

Officers: Greg Charman, Community Safety Manager
Neil Worth, Community Safety Officer

1. TO APPROVE AS CORRECT THE RECORD OF THE MEETING HELD ON 19th JUNE 2013

The notes of the meeting held on 19th June 2013 were approved as a correct record.

The Working Group noted that the Councillor Sue Rogers was now the Council's representative on the Sussex Police and Crime Panel.

The Working Group welcomed confirmation that the Community Safety Partnership was now automatically consulted on planning applications for developments of more than 25 residential units or planning applications that might have a significant impact on communities.

2. TO RECEIVE ANY DECLARATIONS OF INTEREST

There were no declarations of interest.

3. ANNOUNCEMENTS FROM THE CHAIRMAN OR CHIEF EXECUTIVE

There were no announcements.

4. PROTOCOL FOR THE SCRUTINY OF CRIME AND DISORDER MATTERS

The Working Group received the protocol which had been presented at the Scrutiny and Overview Committee meeting on 5th November 2012. The protocol outlined the key provisions of the relevant legislation, the terms of reference of the Working Group, the duty to meet at least once a

year, the role of scrutinising the CSP Plan and performance reports, the ability to give notice to responsible authorities to require their representatives to attend Working Group meetings or to provide information required for scrutiny.

Members considered the protocol and felt that no amendments were required.

Subsequent to the last meeting of the Working Group, the Director of Community Services, the Chairman, and the Chairman of the Scrutiny and Overview Committee had met and decided that the Working Group would no longer meet on a quarterly basis but would meet once or twice a year. That was agreed in order to ensure the Horsham District Community Safety Partnership had time to progress its priorities and for the Working Group to then meet to review performance in relation to the CSP Plan and to consider whether any issues required a further meeting with or without CSP partners in attendance.

5. **CHAIRMAN TO REPORT BACK ON THE COMMUNITY SAFETY PARTNERSHIP BOARD MEETINGS AND PERFORMANCE**

The Chairman attended the quarterly meetings of the CSP Board which she felt was working well. She stated her disappointment with the decision to end the Joint Action Group meetings but noted that those meetings might be reinstated.

The Working Group noted the Anti-Social Behaviour Action Plan progress report for 2013/14. It provided an example of how the action plans were tracked and progress was noted using a red, amber and green coding; the other action plans would be circulated. Horsham District Council had taken the lead on two of the action plans: reducing anti-social behaviour and community engagement and reassurance.

Members were shown how the E-CINS system worked in relation to information about anti-social behaviour. It allowed the relevant agencies to share data securely in a central hub; partners could task and inform one another, bring together reports in one place and share information. It acted as a case management tool for recording anti-social behaviour, domestic violence and hate crime cases across Sussex.

6. **ACTION PLANS FOR THE COMMUNITY SAFETY PARTNERSHIP PLAN 2014/15**

The Community Safety Partnership Plan for 2014/15 had identified five actions, some new and some continuing from the previous year. The CSP

Plan was being refreshed and finalised; it would be circulated in due course.

The Working Group noted the following Action Plans.

Reducing anti-social behaviour (lead partner is Horsham District Council), Community engagement and reassurance (lead partner is Horsham District Council), reducing violence against the person (lead partner is Sussex Police), and casualty reduction with the aim of reducing the number of people killed and seriously injured on the roads in the District (lead partner is West Sussex Fire and Rescue Service). A final action plan was being developed to tackle issues around drugs and alcohol; all of the CSP partners would share the work on that action plan.

The Community Safety Manager regretted the reduction in the level of analytical support that the County Council once provided; the Insights Team no longer provided in-depth analysis but would, if requested, provide broad statistics on specified topics. Sussex Police did provide raw statistics but that needed to be analysed.

The Horsham District CSP website would be updated; that work was programmed as part of the Business Transformation programme and the proposed transfer to a new website.

7. CSP CAMPAIGNS AND EVENTS CALENDAR 2014

The Working Group noted the CSP campaigns and events calendar for 2014.

Members, in particular, noted the success of Junior Citizen which had taught 900 young children via thirteen fun scenarios crucial life skills and the importance of being responsible citizens. New Drivers Awareness sessions had been scheduled every second month from May 2014 onwards; the sessions would be provided by West Sussex Fire and Rescue Service with support from the Sussex Safer Roads Partnership.

A campaign was planned to coincide with the World Cup. The licensing team from Sussex Police would visit those premises that wished to apply for a late licence. An alcohol awareness event would be held in Horsham town on 13th July 2014.

Relevant campaigns and events could be rolled out to rural locations in the District.

8. REFORM OF ANTI-SOCIAL BEHAVIOUR POWERS

The Community Safety Officer gave a presentation which outlined the reform of anti-social behaviour powers.

The Anti-Social Behaviour, Crime and Policing Act 2014 received Royal Assent on 13th March 2014 and would come into effect on 13th May 2014. The Act would introduce simpler, more effective powers to tackle anti-social behaviour to provide better protection for victims and communities. It created new statutory duties for local authorities in relation to anti-social behaviour and information sharing.

The new Community Trigger and Community Remedy would empower victims and communities, giving them a greater say in how agencies responded to complaints of anti-social behaviour and in relation to out-of-court sanctions for offenders.

The Working Group noted the following reforms and powers.

The Community Trigger and Anti-Social Behaviour Case Reviews – this gave victims of anti-social behaviour, communities and Members the right to request a review of a case subject to certain criteria being met. There was a responsibility on the Relevant Bodies (HDC, Sussex Police, the District Clinical Commissioning Groups, and Registered Social Landlords) to have a procedure in place to undertake case reviews. The proposed Community Trigger Threshold for Horsham District was when there were three or more qualifying complaints of anti-social behaviour within a six month period, starting from the date of the first complaint. A qualifying complaint was one of anti-social behaviour made to a relevant body within seven days of the incident occurring. A complaint would be assessed within working seven days, and if it met the threshold a case review would commence and relevant agencies would be requested to provide information. Cases would be reviewed at monthly Anti-Social Behaviour Advisory Group meetings. If necessary an action plan would be prepared in consultation with the complainant. Recommendations could be made to the relevant agency. It was proposed that an annual report would be issued and data presented about the number of cases that met the threshold or not, how many case reviews were undertaken, and the number of reviews that led to recommendations being made. An appeals process would also have to be established to allow appeals to be submitted in writing within 14 days of the receipt of a case review decision.

The draft policy document would be circulated to Working Group Members who would be invited to submit their comments prior to a consultation with CSP partners.

The Community Remedy – this gave victims a say about the out-of-court punishment of offenders for low level crime and anti-social behaviour. The Police and Crime Commissioner had a duty to consult with the public and community representatives about punitive or restorative actions.

Injunction to prevent nuisance and annoyance – this could be used by various agencies to stop or prevent individuals engaging in anti-social behaviour. The injunctions would include prohibitions but could also include positive requirements. Breaches were civil contempt of court which could result in up to two years imprisonment.

Criminal Behaviour Order – this Order could be issued when a person was convicted of an offence to tackle the most persistent anti-social behaviour offenders engaged in crime. Breaches were a criminal offence which could result in up to five years imprisonment, a fine or both.

Police Dispersal Power – the Police would have the power to require a person committing or likely to commit anti-social behaviour, crime or disorder to leave an area for up to 48 hours. This was for use in a specified location and had to be authorised by an Inspector or above. Failure to comply was a criminal offence subject to a £2,500 fine or three months imprisonment.

Community Protection Notice – this power could be used to stop a person, business or organisation committing anti-social behaviour which spoiled the quality of life. Breaches were a criminal offence subject to a fixed penalty notice of up to £100, a fine on conviction of £2,500 for individuals or £20,000 for businesses.

Public Spaces Protection Order – this could be issued by Horsham District Council following consultation to stop individuals or groups committing anti-social behaviour in a public place. The behaviour had to be or likely to be detrimental to the quality of life of local people, be persistent in nature and unreasonable. The Order could be enforced by the Police and Council officers. Breaches were a criminal offence resulting in a £100 fixed penalty or a fine on conviction of £1,000.

Closure Power – this power would allow the Council or Police to quickly close down premises being used or likely to be used to commit a nuisance or disorder. The Closure Notice could close premises for up to 48 hours without court action. A Closure Order made by a court could close premises for up to six months. Breaches of the Order would be a criminal offence with up to six months imprisonment.

Absolute Grounds for Possession – this was a new power to grant possession of secure and assured tenancies where anti-social behaviour or crime had already been proven.

9. FUTURE MEETING DATES

Members expressed their view that the Working Group meetings were useful and they felt that regular scheduled meetings would be beneficial. It was suggested that meetings be held at least twice a year and perhaps approximately six months apart. The first meeting could review the previous year's CSP Plan and the performance in delivering the action plans, and the second meeting could consider the progress of the current year's Plan and address issues or seek clarity on any matters by requesting CSP partners to attend the meeting.

The Chairman, the Community Safety Manager, and the Chairman of the Scrutiny and Overview Committee agreed to meet the Director of Community Services to discuss the Working Group's pattern of working and the frequency of its meetings.

The meeting finished at 4.55 p.m. having commenced at 3.00 p.m.

CHAIRMAN

PROTOCOL FOR THE SCRUTINY OF CRIME AND DISORDER MATTERS
Horsham District Council

1. Introduction

The power to scrutinise local Community Safety Partnerships (CSP) is granted through a number of pieces of legislation including: The Police and Justice Act 2006, the Local Government & Public Involvement in Health Act 2007. Most recently however the Crime and Disorder Overview and Scrutiny Regulations 2009 (and statutory guidance) has granted local authorities new powers for the scrutiny of crime and disorder and Councillor Call for Action (CCfA).

The legislation has widened the provisions of Overview and Scrutiny and defines those crime and disorder functions or matters that may be considered by Overview and Scrutiny Committees and those that are considered 'excluded matters'.

These require that every local authority has in place a committee with power to review and scrutinise, and make reports or recommendations, regarding the functioning of the responsible authorities (*which include*): *Horsham District Council, West Sussex County Council, West Sussex Fire and Rescue Service, Sussex Police, the Primary Care Trust and Surrey and Sussex Probation Service*) that comprise a Community Safety Partnership (CSP). The new legislation forms part of the Government's commitment to strengthen the accountability of local CSP's and enhance the role of local councillors and local communities in preventing and reducing crime. In Horsham District, the Scrutiny and Overview Committee has been designated the "Crime and Disorder Committee" for the purposes of scrutinising crime and disorder matters.

2. Purpose of the Protocol

The purpose of this protocol is to define the manner in which the Scrutiny and Overview Committee can scrutinise the Horsham District CSP and its partners with a view to facilitating good working relationships throughout the scrutiny process.

3. Principles of the Community Safety Scrutiny Operation

- (i) Community Safety Scrutiny is intended to be positive, objective and constructive. It should acknowledge good practice and recommend improvements where it feels these would be of benefit. The Scrutiny process should focus on service outcomes and seek to add value and drive improvements to public services.

- (ii) Community Safety and reducing crime and disorder for the people of Horsham District is dependant on many factors including the services provided through the Community Safety Partnership. This shared responsibility will be acknowledged by the Overview and Scrutiny Committee when undertaking scrutiny reviews.
- (iii) At all times, both Officers and Members of the organisations involved in crime and disorder scrutiny, representatives and Members of the public will be treated with respect and courtesy.
- (iv) The key organisations involved in the scrutinising of crime and disorder must be willing to share information, knowledge and reports which relate to the delivery and success of services in Horsham District, and carry out duties that would be reasonably expected of them to enable crime and disorder scrutiny to be successfully undertaken.
- (v) Crime and disorder scrutiny will be open and transparent.

4. **The key provisions of the legislation**

These are as follows:

- (1) Every local authority is required to have in place a Crime and Disorder Committee with power to review and scrutinise, and make reports and recommendations, regarding the discharge by the responsible authorities of their crime and disorder functions;
- (2) Crime and Disorder Committees must meet at least once a year;
- (3) Responsible authorities or co-operating bodies (*non statutory CSP members*) must provide such information requested by the Crime and Disorder Committee within the timescales identified in the request;
- (4) Crime and Disorder Committees can request the attendance of a representative of a responsible authority or co-operating body in order to answer questions;
- (5) Responsible authorities or co-operating bodies must respond to any recommendations made by the Crime and Disorder Committee within 28 days.
- (6) Crime and Disorder Committees can co-opt additional members to serve on the committee to add value and expertise to the Committee's work. Co-optees can include any person except a member of the local authority's executive.

5. Terms of Reference for the scrutiny and overview of crime and disorder in Horsham District

The function and terms of reference of the Scrutiny and Overview Committee in relation to Crime and Disorder issues are as follows:

- (1) to scrutinise the work of the CSP and the partners who comprise it, insofar as their activities relate to the partnership itself;
- (2) to make reports and / or recommendations to the Council with respect to the discharge by the CSP of its crime and disorder functions;
- (3) to act as a 'critical friend' of the CSP, providing it with constructive challenge at a strategic level rather than adversarial fault-finding at an operational level;
- (4) to consider Councillor Call for Actions (CCfAs) that arise through the Council's CCfA process and which relate to Crime and Disorder matters.

Work Programming - The CSP will be advised in advance of any scrutiny review relating to a crime and disorder issue that the Scrutiny and Overview Committee is intending to undertake as part of its annual work programme.

Scrutiny Topics - These may include scrutiny of the CSP partnership plan, the strategic assessment, performance reports, or any activities relating to crime and disorder matters which are co-ordinated at district level. It is recommended that performance against the partnership plan be considered as the benchmark for any selected topic.

Notice of required attendance at scrutiny meetings -The Scrutiny and Overview Committee will give **at least 4 weeks notice** to responsible/co-operating authorities requesting their attendance at a scrutiny and overview meeting. Attendance requests will clearly outline the scope of the scrutiny exercise.

Notice of Information required for scrutiny -The Scrutiny and Overview Committee will give **at least 4 weeks notice** to responsible / co-operating authorities requesting information relating to the planning and operation of crime and disorder reduction activities and strategies that it requires in order to facilitate the overview and scrutiny process. Information provided by responsible/co-operating authorities should be depersonalised, unless the identification of an individual is necessary or appropriate for the Overview and Scrutiny Committee to properly exercise its powers. The information should also not include information that would be reasonably likely to prejudice legal proceedings or current or future operations of the responsible authority/co-operating authorities.

Agenda item 5

Protocol for the Scrutiny of Crime and Disorder Matters

Making and Responding to Recommendations - At the conclusion of its study, the Scrutiny and Overview Committee will consult the CSP on any draft reports and associated recommendations before they are published. Final reports and recommendations will be sent to the relevant responsible / co-operating authorities that are affected by the report or recommendations, plus other individuals or organisations that contributed to the study. As required by the legislation, responsible / co-operating authorities must respond to any relevant recommendations made by the Scrutiny and Overview Committee within 28 days of receipt.

Monitoring the Implementation of Recommendations - The Scrutiny and Overview Committee will monitor, as appropriate, progress in implementing any recommendations.

Reviewing the Protocol - This protocol will be kept under regular review to ensure it remains fit for purpose and compliant with emerging legislation.

Horsham District Community Safety Partnership

ACTION PLAN

Priority: Reducing Anti-social Behaviour

Action	Progress (As at 13/08/13)	Status (R A G)
Work with partner agencies and community groups to develop victim and witness service standards using best practise including the risk assessment tool.	This is an area of work requiring further development in 2014. Although the ASB team are linked in well with the Risk Assessment process for witnesses, they do not have a set of service standards beyond those which Sussex Police use. Developing such service standards is an aim for 2014. During 2013 the Risk Assessment process was uploaded onto e-cins which is not being used.	A
As a partnership, develop qualitative data regarding how victims and witnesses of ASB feel within the District, feeding this information in to other areas of business / plans and strategies.	The 2013 Residents Survey contained a series of questions pertaining to ASB which provide a useful background. The ASB team are yet to develop other means to analyse the qualitative information being passed onto from victims and witnesses but this is an objective for 2014.	A

Horsham District Community Safety Partnership

ACTION PLAN

Priority: Reducing Anti-social Behaviour

<p>Collect and analyse relevant information to enable the levels, types and patterns of incidents to be monitored and the effectiveness of any work undertaken to be monitored. This information should in turn inform service delivery / development.</p>	<p>ASB data is collected by Sussex Police and was formerly analysed by the WSCC Insights team. Owing to an internal restructure, this analytical work no longer happens which has left something of a gap in our collective understanding. The Insights team will process 'special requests' of data analysis; however the ASB team have not exploited this opportunity as yet. This information is clearly vital to both service delivery and development and as such is seen as a priority for 2014.</p>	<p>R</p>
<p>Encourage the reporting of ASB by high risk groups including those with long term illness or disabilities. Develop relationships with agencies and third sector organisations supporting high risk groups and increase reporting by raising awareness within the District and publicising successful outcomes.</p>	<p>This action is very strongly linked to the Repeat and Vulnerable Victim priority which has its own Action Plan featuring Hate incidents as a strong theme. The ASB team have been part of a series of meetings held on the District which focus both on people with disabilities as well as Elderly Vulnerable individuals. Both of these groups also have action plans which feature items about reporting ASB. Coupled to this the team also have regular meetings with Police colleagues concerning the vulnerable victims agenda which features as another strand of the ASBag meeting. There remains more work to do in this area however as raising awareness is an ongoing programme of work.</p>	<p>A</p>

Horsham District Community Safety Partnership

ACTION PLAN

Priority: Reducing Anti-social Behaviour

<p>Ensure appropriate representation of partners at the Road Safety Action Group (both North Downs and District wide) to ensure anti-social driving remains a priority locally.</p>	<p>The Community Safety Unit have always sent a rep to the Northern Area Road Safety Action Group and that will also be the case with the local Horsham Road Safety Action Group which is due to launch in Sept 2013.</p>	<p style="text-align: center;">G</p>
<p>Resource and develop through appropriate training, the high quality anti-social behaviour casework service ensuring that any good practise and learning points are incorporated.</p>	<p>Training and development opportunities are discussed regularly during team meetings and since taking on the Think Family work, the team have accessed more training to broaden their knowledge. Coupled to this the team are involved in the ASB officers meetings which take place around the county with the purpose of sharing best practise.</p>	<p style="text-align: center;">G</p>
<p>Undertake development work with local services dealing with homeless people to builds links communicating both consequences of ASB for perpetrators as well as victim and witness support services.</p>	<p>The ASB team are linked in well to the local housing providers as well as those services such as the ARK project and Central Sussex YMCA catering for people who are homeless. Although homelessness remains at relatively low levels across the District, it is recognised that certain individuals can cause a disproportionate amount of ASB and the team have ongoing contact with such people. The most recent example being the work done with the town centre street drinking community.</p>	<p style="text-align: center;">G</p>

Horsham District Community Safety Partnership

ACTION PLAN

Priority: Reducing Anti-social Behaviour

<p>Continue and develop the Anti-social Behaviour Action Group (ASBag) as a forum for partners to discuss ASB on a monthly basis across the District.</p>	<p>This group and its terms of reference were revised in 2012 and very well attended meetings are now held each month which the ASB team lead. The groups are considered a very effective way to share information and feedback to date has been very favourable.</p>	<p>G</p>
<p>Develop and deliver a training input for CSP frontline staff on ASB focussing both on signs, symptoms, how to report ASB and the support services available.</p>	<p>This training has not yet been organised or delivered and remains an outstanding action.</p>	<p>R</p>
<p>Continue to ensure ASB team representation at the quarterly Housing Liaison Forums to promote dialogue with registered providers.</p>	<p>Historically there has always an ASB team representative at these quarterly meetings chaired by HDC. However the forum doesn't exist anymore and awaiting new instructions as to the group's future direction.</p>	<p>G</p>
<p>Use the Joint Action Group (JAG) meeting to identify hotspot areas and target resources accordingly. Identify and monitor factors which contribute to ASB in these areas and provide this information to other partners where agendas / strategies overlap.</p>	<p>Since writing this action plan the JAG has undergone a revision to its terms of reference. This means that unless there is a significant problem there is no longer a place in the meeting as a standing item to discuss ASB hotspots. Instead this work is covered as part of the ASBag meeting which is both monthly and attended by a variety of multi-agency colleagues.</p>	<p>G</p>

Horsham District Community Safety Partnership

ACTION PLAN

Priority: Reducing Anti-social Behaviour

<p>Where appropriate utilise restorative justice and community resolution techniques with adults and young people committing ASB, to assist perpetrators in understanding the harm their behaviour is causing and to provide positive outcomes for victims.</p>	<p>The team have and continue to use RJ and CR techniques where possible. It is however true to say that the number of cases has not been as high as predicted when CR was introduced, although the referral element is not down to the ASB team. There is room for further development in this area.</p>	<p>A</p>
<p>Ensure that front line CSP staff are trained in the use of the new tools and powers to tackle ASB once adopted. Brief partner agencies on changes and the way in which ASB is being tackled within Horsham District.</p>	<p>These tools remain unadopted at present and at White Paper stage in terms of statutory process.</p>	<p>R</p>
<p>Ensure that publicity and the showcasing of work to tackle ASB is co-ordinated with partner agencies.</p>	<p>This is an area of work requiring further development and although examples of collaborative work exist (Neighbour Nuisance Guide) there is room for more publicity and showcasing linked to the Engagement and Reassurance sub-group of which the ASB team are regular attendees.</p> <p>Other examples = awareness days / days of action</p> <p>Multi-agency action and publicity</p> <p>ASBag</p>	<p>A</p>

Horsham District Community Safety Partnership

ACTION PLAN

Priority: Reducing Anti-social Behaviour

<p>Liaise with communities via Local Action Teams, Police Panels, Parish based Youth Worker and others attending Community Meetings to ensure active involvement and early indicators of potential problems are picked up as well as feeding in key performance information.</p>	<p>Strong links exists with many community based workers and groups, however it is also recognised that this work is ongoing as things change and new initiatives are created. The most recent example is the Community Youth Workers who are new to post, however the ASB team have met the staff and have given input into their early training. The team regularly attend Police Panel and LAT meetings.</p>	<p>G</p>
<p>Support individuals and communities to build the skills and capacity to work with the CSP to tackle and report ASB within their communities as well as identifying victims and witnesses.</p>	<p>This work is considered ongoing and is likely to never reach an end state. Each time the CSP collectively tackles issues within a geographical location, the ASB team is a cornerstone of this work. The most recent example was a day of action and other associated work to tackle drugs in the Roffey area.</p>	<p>A</p>
<p>Continue to work with partners including the Family Intervention Project, Targeted Youth Support Service and Youth Offending Service to tackle ASB caused by young people and present first time entrants to the youth justice system.</p>	<p>Although links to each of these services exists there is room for further development, particularly the YOS and TYS.</p> <p>Other links include ASBag and DY0</p>	<p>G</p>
<p>Ensure that the CAF process is embedded within the ASB casework services, including any emerging work from the FIP agenda.</p>	<p>ASB Caseworkers regularly attend CAF planning meetings and are familiar and comfortable with the processes and mechanisms that drive CAF</p>	<p>G</p>

Horsham District Community Safety Partnership

ACTION PLAN

Priority: Reducing Anti-social Behaviour

<p>Develop stronger links to the District Council's Strategic Planning department to ensure early influence over the layout and format of potential developments with the aim of 'designing out' ASB from local communities such as the proposed West of Horsham BMX pump track.</p>	<p>In July 2013 the CSP was added to the Council's list of consultee organisations for major developments. This means that for the first time the partnership (including the ASB team) will be able to both view and comment on developments from the point of view of ASB. This new process is in the early stages but already the CSP has been sent a number of developments to view.</p>	<p style="text-align: center;">G</p>
<p>Ensure strong links exist to the education providers locally and that ASB features on any appropriate input from either the CSP or via the Police School Liaison Officers.</p>	<p>The ASB team have developed meetings known as BIC's to discuss behaviours, issues and concerns which all of the secondary schools in the District. These meetings are relatively informal but provide the opportunity to pick up any ASB issues which are taking place both inside and outside of school. In addition to this work the team have a regular dialogue with the School Liaison Officers.</p>	<p style="text-align: center;">G</p>
<p>Ensure the ASB team refer into and promote the work of the West Sussex Mediation Service amongst those individuals who have reported issues which 'fit' the referral criteria.</p>	<p>The team refer appropriate cases into the WSMS when the referral criteria have been met.</p>	<p style="text-align: center;">G</p>
<p>Develop and distribute a Neighbour Nuisance Guide to promote 'self-help' within our communities from those suffering ongoing neighbour problems.</p>	<p>This guide has been developed and is widely used by a number of partners in both hard copy format and electronically. An annual check of the content's accuracy is planned for later in 2013.</p>	<p style="text-align: center;">G</p>

Horsham District Community Safety Partnership

ACTION PLAN

Priority: Reducing Anti-social Behaviour

<p>If adopted by the CSP ensure that E-Cins is fully utilised for ASB work and that the potential of the system maximised by having staff trained to an appropriate level.</p>	<p>E-cins has now been adopted by the CSP and the ASB team have received their training from the provider. The team have been uploading information onto the system and it is planned that the ASB Administrator will be the likely 'owner' of the system in terms of information. The value of E-cins will not be fully exploited until such a time as the other statutory partners are using the system.</p>	<p>A</p>
<p>Continue to deliver the CSP's Revolution and Understanding Teenage Behaviour courses on a needs basis with appropriate referrals from partners including schools.</p>	<p>Both projects remain ongoing and well attended having recently benefitted from revisions to improve the structure and content. Each course requires attendees to provide feedback which is assessed by the CSM to ensure value for money.</p>	<p>G</p>

Horsham District Community Safety Partnership

ACTION PLAN 2013 – 2014

Priority: Reducing Burglary (with a focus on people's homes)

Outcome	To reduce the number of people who are victims of domestic burglaries which can have a significant impact.			
Strategic Objectives	<ol style="list-style-type: none"> 1. Prevention - to reduce the number of recorded burglary dwelling offences and in particular repeat victims 2. Intelligence - to increase multi agency information sharing in relation to those at risk due to their elderly and / or vulnerable status 3. Enforcement - to work 'cross border' on enforcement campaigns and initiatives 4. Safer Roads Action Plan

Apologies for not responding sooner. This is a very difficult question to answer. I actually took over the Horsham Road Safety Accident Group in early 2014 from Roy Barraclough - another Station Manager from Central Group. Until August 2013 the RSAG had been absorbed into the North Area RSAG which comprised of Horsham, Mid-Sussex and Crawley. Following a spate of KSI in Horsham District, the CSP met and discussed what should be done about the deaths and what work was ongoing. It was decided to revive the Horsham RSAG.

2013/2014 - Generic work went on under both the NARSAG and latterly the Horsham RSAG:

- Junior Citizen
- Summer and xmas drink drive campaigns
- Support for Tyre Safe
- Schools education from WSCC, Fire and Police
- Bikeability, cycle training
- Community Speedwatch
- Urban footsteps
- Junior Road Safety Officer
- Safe Drive, Stay Alive
- New Driver and New Rider Awareness programs
- Southwater Safer Roads
- Mocktails
- National Bike Week.

Additionally following on from the deaths we stepped up community engagement with the District Youth by sending CSP resources to the Snack Wagon, NDA provided at Horsham Fire Station, reviewed our provision of Safe Drive sessions and started additional work with Billingshurst Parish Council as they were directly impacted by a number of RTCs.

Most of these activities were jointly resourced with partners having greater or lesser involvement depending on the activity.

Please contact me if I can be of any further assistance.

Horsham roads second most lethal in county

West Sussex County Times

17 June 2014

Nine people were killed and 84 suffered serious injuries in road traffic collisions in the Horsham district between April 2013 and March 2014.

Road safety figures produced by West Sussex County Council reveal that only roads in the Mid Sussex district are more dangerous than Horsham within the county.

A total of 109 people were killed or seriously injured on Mid Sussex roads during the period of time - compared to 93 in Horsham.

The Mid Sussex district is also larger in size than the Horsham district.

The figure drops to 52 in the Worthing district and 34 in the Crawley district.

Inspector Phil Nicholas of Sussex Police's road policing unit said: "While it seems a worrying upward trend in seriously injured casualties in the Horsham district, this should also be seen in light of the previous years, which shows we have had a high reduction in casualties.

"One fatality on our roads is one too many.

"Making further reductions in casualty rates year on year, on the back of significant past reductions becomes increasingly difficult but this is something that we are committed to."

A further 342 people received slight injuries in road accidents to take place in Horsham.

In West Sussex there were 30 fatalities on roads within the period of time, while 450 people received serious injuries and 2195 slight injuries.

Insp Nicholas added: "Sussex Police continues to work with the council and our partners that make up the Safer Roads Partnership to develop a strategy which looks at reducing and preventing road casualties.

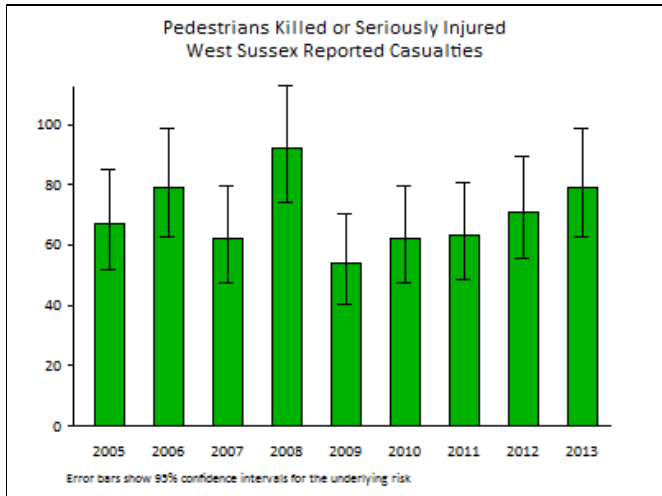

"In addition to undertaking enforcement and education initiatives, we need to work with local communities to ensure there are greater levels of respect by all road users, as we endeavour to make our roads safer."

ACTION PLAN 2014 – 2015

Priority: Violence Against The Person (including Domestic Abuse)

Outcome	To reduce the number of people who are victims of violence committed against them whilst simultaneously increasing the reporting of Domestic Abuse.			
Strategic Objectives	<ol style="list-style-type: none"> 1. Prevention - to reduce the number of recorded all injury violence offences (AIV) 2. Intelligence - to develop intelligence in relation to alcohol fuelled violence that may contribute to the commission of violent offences. 3. Enforcement - to enhance the visibility of both police and partner agencies at times of identified peak demand and offending. 4. Reassurance - to increase the reporting of domestic abuse (incidents and crimes) 	R	A	G
Key Performance Indicators	<ol style="list-style-type: none"> 1. The total number of Police recorded all injury violence (AIV) offences 2013/14 in comparison to 2012/13 2. The number of multi-agency test purchase operations (on and off licences) as well as the completion of a covert licensing operation in Horsham town centre. 3. To demonstrate a more focussed presence in hot spot areas at the key times from both the police and other partner agencies. 4. The total number of Police recorded domestic abuse incidents and crimes 2013/14 in comparison to 2012/13 <p style="color: red;">Update 5th February 2014 - PPY - DA incidents increased by 12.9% (70 incidents) and DA crimes reduced by 1% (3 incidents). This increase has continued – as at 15th September 2014 DA crime had increased by 61 offences for the 2014/15 PPY to date.</p> <p style="color: red;"><u>PPY Result as at 31/03/2014</u></p> <p style="color: red;">We recorded 261 Violence Against the Person offences for the 2013/14 PPY. ACTION PLAN 2014 – 2015

Priority: Violence Against The Person (including Domestic Abuse)

Action	Progress	Status (R A G)
<p>1. The successful roll-out of the Street Pastors scheme in Billingshurst and consideration for wider roll out to the town centre area.</p> <p>1a. The dynamic targeting of hot spot locations by the Youth Support Team to provide a visible presence and provide advice in relation to the impact of violence including that within relationships.</p>	<p>1. Scheme rolled out and performing well. Aspiration remains for a similar scheme in Horsham Town Centre.</p> <p>1a. Community Youth Workers employed and deployed across the District who can give appropriate advice and sign post for specialist advice if required.</p> <p>Snack Wagon and the Purple Bus are deployed at the direction of the ASBAG based on ASB hot spots.</p> <p>The Information Shop exists in the town centre - there is a gap in provision in rural areas.</p>	<p>G</p> <p>A</p>

The Economic Policy Centre www.economicpolicycentre.com has made every effort in order to ensure that the data for UKCrimeStats is accurate and up to date. However, we are aware of certain deficiencies in this data which are beyond our control. That's because as a 3rd party developer, we do not collect the data, the Police do who then hand it over to another data company to release to 3rd party developers such as ourselves. We only download and analyse it so that you can use it. For full detail of these deficiencies, please [read here](#).

In September 2011, Other Crime was divided into 6 categories - Drugs, Public Disorder & Weapons (which was later split further and so is not displayed here), Criminal Damage & Arson (CD&A), Theft - Shoplifting, Theft-Other and Other.

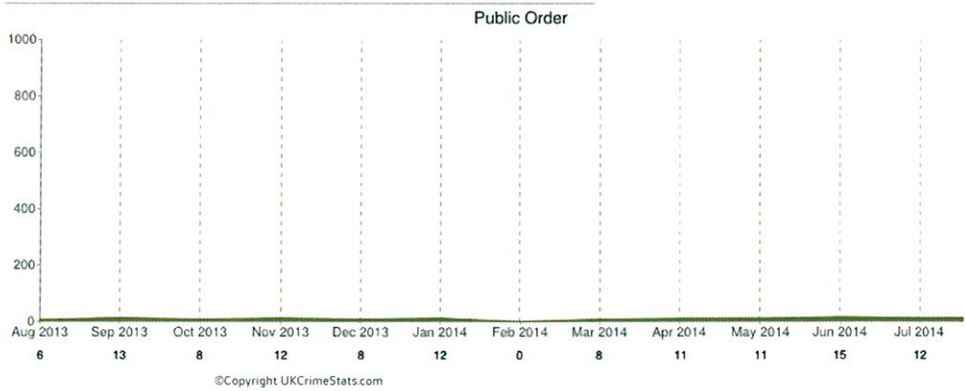

From May 2013, the following changes were made to the crime categories:

- 1) The violent crime category was renamed "violence and sexual offences"
- 2) A new category for "bicycle theft" was created which previously fell within "other theft"
- 3) A new category for "theft from the person" was created which previously fell within "other theft"
- 4) Public disorder and weapons were then split into two new categories; "public order" and "possession of weapons"
- 5) Both "other firearms offences" and "other knives offences" which were in "other crime" were moved into "possession of weapons"
