Members of the Council who are not members of the Policy Development Advisory Group may attend to observe the proceedings, seating for which will be provided, subject to providing advance (by noon of the day of the meeting) written notification to the Chairman of the meeting and committeeservices@horsham.gov.uk

Councillors: Philip Circus (Chairman)

Matthew Allen
John Blackall
Toni Bradnum
Michael Croker
Ruth Fletcher

Richard Landeryou
Tim Lloyd
Christian Mitchell
Louise Potter
Diana van der Klugt

You are summoned to the meeting to transact the following business

Glen Chipp
Chief Executive

Agenda

	Page No.
1. Apologies for absence	
2. Notes of previous meeting	3 - 4
To receive the notes of the meeting held on 16 November 2020	
3. Electrical and Textiles	
To receive a presentation from the Recycling & Waste Strategy Manager on a proposed trial kerbside collection of waste electrical goods and textiles	
4. Food Waste	
To receive a presentation from the Recycling & Waste Strategy Manager	

5. **Community Climate Change Grants**

To receive a presentation from the Environmental Coordination Manager on the allocation of community grants

6. **HVO Biofuel**

To receive a presentation from the Head of Parking & Waste

7. **Forward Plan Extract for the Environment, Waste and Recycling Portfolio**

There are no items on the current Forward Plan

Environment, Recycling and Waste Policy Development Advisory Group
16 NOVEMBER 2020

Present: Councillors: Philip Circus (Chairman), Matthew Allen, John Blackall, Toni Bradnum, Michael Croker, Ruth Fletcher, Richard Landeryou, Tim Lloyd, Christian Mitchell, Louise Potter and Diana van der Klugt

10 **NOTES OF PREVIOUS MEETING**

The notes of the meeting held on 7 September were received by the Group.

11 **WILDER HORSHAM**

The Cabinet Member welcomed Sussex Wildlife Trust's (SWT) Director of Conservation Policy and Evidence, and the Landowner Adviser and Community Support Officer, who had recently been recruited to work on the Wilder Horsham District project.

The SWT Director of Conservation gave an update on the Wilder Horsham District project. There were three main strands to the work that sought to build: a resilient organisation (HDC); resilient landscapes; and resilient communities.

Much of the work would focus on creating key Nature Recovery Networks across the District. This would involve landowners, including farmers, and the HDC Parks & Countryside team with regards to Council owned land. The Landowner Adviser summarised what had been achieved so far and how liaison with landowners, local communities and Parish Councils from across the district would continue during the 5-year project.

The Environmental Coordination Manager presented an update on the progress of the project so far. There was an aim of embedding the core principles of Wilder Horsham throughout the council. The first round of applications for the HDC Community Climate Fund had just closed and a Nature Recovery Award would be launched later in November. The latter focused on supporting the creation of the Nature Recovery Networks. There would be talks and seminars for staff and Members, with the talks for staff beginning in the New Year.

12 **WHEELED BINS PROCUREMENT CONTRACT**

The Recycling & Waste Strategy Manager updated the group on the Council's Wheeled Bin contract. A procurement exercise had been carried out and the tender had identified a new supplier. The report would be considered by Cabinet on 26 November.

13 **RE-USE - PRESENTATION**

The Recycling & Waste Strategy Manager proposed plans for a new re-use initiative, which would include a drop off facility at Hop Oast for hard and soft furniture. The funding for this project was secured through the West Sussex Waste Partnership and a 9-month trial period would begin in the New Year.

There would be a Pop-Up shop every 3 months to re-sell the furniture, with a delivery service also available. The long-term ambition would be for a permanent site to be secured.

14 **ALTERNATIVE FUELS**

The Head of Waste, Street Scene & Fleet gave an update on Hop Oast's trialling of new Electric Waste Vehicles. The vehicle being trialled was remanufactured and fitted with new electric technology. This was a significantly cheaper option but still had the same vehicle life expectancy. The Infrastructure needed to charge these vehicles would need to be considered. The service had been looking at a number of alternative fuel types, include a HVO alternative to diesel fuel which would provide a large reduction in carbon emissions.

15 **FORWARD PLAN EXTRACT FOR THE ENVIRONMENT, WASTE AND RECYCLING PORTFOLIO**

The Forward Plan extract was noted.

The meeting closed at 7.30 pm having commenced at 5.30 pm

CHAIRMAN
